SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

Mudslide, I-5, Los Angeles / Kern County Line

On Friday, May 6, 2016 at 1840 hours, the Southern Region Duty Officer (SDO) was notified by the California State Warning Center (CSWC) that Interstate 5 was closed to traffic at the Los Angeles/Kern County line due to mudflow and debris on the highway. Drivers on both directions of Interstate 5 between the Grapevine and State Route 138 were being assisted off the roadway.

- Interstate 5 reopened at approximately 2041 hours after a three-hour closure.
- There were no requests for state assistance or any unmet needs.

Natural Gas Release, Playa Del Rey, Los Angeles County

On Friday, May 6, 2016 at 1715 hours, the California State Warning Center (CSWC) notified the Southern Duty Officer (SDO) about a hazardous material spill report citing release of an unknown amount of natural gas from one of the Southern California Gas facilities at Playa Del Rey Underground Storage.

- Per the Los Angeles County Office of Emergency Management Duty Officer (OEM) the Southern California Gas sent a representative to check over the facility. No leaks or issues were found.
- There were no emergency management issues related to this incident and no request for state assistance.

WEATHER OF CONCERN

Weather of Concern

Northern California:

- Large bands of steady rain with embedded thunderstorms are most likely to occur today, where rainfall could exceed 1 inch in certain areas.
- Rivers and creeks will continue to rise, with some minor flooding possible near smaller creeks and streams.
- Most snow will be limited to the highest passes above 8500 feet.

Central California

- The spring weather system that has impacted the area for the last few days will continue to linger through the weekend.
- After several days of heavy rain, the ground has become saturated and is primed for high flash flood potential.
- Due to the nature of the storms, the San Joaquin Valley and Grapevine areas with once again be affected by possible flash flooding in heavy downpours.

Southern California

- The upper level low pressure system that has been impacting California the past few days will continue to bring scattered showers and possible thunderstorms to the region today.
